

# MECHANICS BANK

## Mechanics Bank has reopened selected lobbies as of June 1<sup>st</sup>

In line with the Governor's "Safe Return" order, the Mechanics Main bank lobby in Water Valley and the bank lobbies on University Avenue and Jackson Avenue West in Oxford are **open for limited access**.

For in-bank service, customers should **wear their masks** and practice **social distancing**. They can expect to see plexiglass shields at teller stations and service desks, as well as social distancing stickers on the floor and hand sanitizer available throughout the bank. Customers are still encouraged to use **drive-thru** and **remote banking tools** when possible, and to contact their local bank branch to **schedule appointments** to meet with a loan officer or customer service representative when needed.

In line with our employee procedures and for the safety of everyone, customers who feel sick or exhibit any signs of illness are asked **to not enter** the buildings. Bank staff will also watch for social distancing and due to limited safety capacity, may ask some customers to wait outside while others finish their banking.

We understand that many in our community are ready for our lobbies to reopen. We have missed the personal contact with our customers as well. We are **excited to see you** and **appreciate your cooperation** with the precautionary measures necessary to safely reopen. We will continue to monitor the Covid-19 events in our market and will adjust operational procedures as needed to protect customers, employees, and the community.

Thank you for banking with Mechanics.
